

NEHA KATAKE

Phone -+91 9322592783

Email Id- katakeneha2003@gmail.com

Address – rajas society, katraj

Education

Bachelor of Engineering in Electronics and communication

Savitri Bai Phule Pune University, PVG'S College Of Engineering, Technology And Management

CGPA : 7.42 (Till 6th Semester)

J.K college of science arts commerce
percentage : 70.67

March 2022

Shivaji English Medium School and Jr college
percentage : 90.4

March 2020

Projects

Otp based door lock system.

Worked on the design and development using ESP32, relays, sensors.

Utilized Arduino IDE for programming and Blynk for backend and user interface

Electric vehicle charger using solar energy.

Designed a solar-powered EV charging system using solar panels, charge controller, and DC-DC converters to enable energy-based vehicle charging

Smart wristband for stress detection and control.

Designed a device to monitor stress levels using physiological signals like heart rate. Generated a specific frequency using a vibration motor to help calm the user down Utilized sensors and a microcontroller (ESP32) to detect elevated stress in real time

Internship

Veblogy innovative pvt Ltd

Jan 2025 - Feb 25

Gained practical experience in designing and developing IoT-based solutions using Arduino, ESP32 and various sensors. developed a wireless smart door lock system using Arduino, enabling remote control via mobile app with real-time monitoring and secure access.

Skills

C language

javascript

java

My SQL

Circuit Design and simulation

Software tools : Proteus, multisim

Time Management

collaborative working
